### Board Comment

Kay brought to our attention that we should look back to our past projects that are not completed, such as Ordinances and Zoning. There is a need to prioritize what is most important and what the next project will be. We need to investigate the status of paperwork that the past Planning Commission members did that were completed on Solar and Windmills Ordinances. The Ordinances were sent to an Attorney, and there has been no word on these Ordinances. We need to make a list of the importance of past projects at the next special meeting May 14, 2026. If we have time at the next meeting, we will look at the Recreation Plan.
